

Riciclaro

SIMPLIFIES LIFE

THE APP FOR MUNICIPALITIES, COMPANIES, AND CITIZENS

RICICLARIO THE BEST CHOICE

Riciclario is an innovative mobile application that helps citizens and no domestic users to manage their own waste – urban waste and similar and to find easily information related to their fiscal position with waste tax.

Riciclario:

- ✓ Give useful support to Municipalities and Service companies regarding urban waste collection and environmental services.
- ✓ Help to increase effectiveness of services, to improve the quality of separated waste collection and to simplify feedback for the improvement of services issued.

SUITABLE FOR TOURISTS

Riciclario can be used in 5 different languages:

Italian, English, French, German and Spanish without extra cost!

Communication channel between Public Administration, service manager and citizens

Notice Board for objects exchange

Useful Help for domestic waste management

Tool for waste tax control

Advantage for citizens

Everyone can free download Riclario: it has generic and specific information that help to make a good separated waste collection.

Advantage for Municipalities

Municipalities can offer this service to citizens in order to support them for a right separated waste collection. Riciclario is a direct channel with citizens for institutional or urgent communications and for the access to informations regarding waste tax.

Advantage for Services Companies

Riciclario was developed in order to be modifiable and adaptable according to the needs of who manages the collected urban waste and environmental service.

INFORMATION AND COMMUNICATION TOOL

Versatile, immediate and capillary Push Notification system.

The push notifications system can be used by the Municipality or the environmental Service Manager to spread information:

REMINDER

- > Remind users when and how to dispose waste
- > Update the user about the report status and requests made
- > Inform when a new notice / bill has been issued, about payments deadlines and if the payments are up to dated or not

NEWS

- > Create a direct channel of capillary Communication between Municipality and Citizen
- > Promptly alert in case of emergencies (eg weather warnings)
- > Communicate if there are events or exhibitions in your Municipality

FEED RSS

- > Allow to choose one or more sources to easily spread information through the notifications system (eg news from the institutional municipal web site, news from one or more local newspapers, etc.)

ABSOLUTELY CLEAR

RELIABLE

Because the information are directly provided by the Municipality / environmental Service Manager

FAST

Because you immediately find all the answers you

ADAPTABLE

Because it can be customized according to the need of Municipality /environmental Service Manager

CHEAP

Because it is the only app which offers so much functionalities and services at competitive prices

SIMPLE

Because it has a clear and intuitive menu that immediately helps to find what you are looking for

COMPLETE

Because it does not only provide all the information on where, how and when to dispose waste, but it also informs about events, emergencies, manifestations in your municipality.

INTERACTIVE

Because it creates a direct and detailed Communication channel between Public

Available for FREE for smartphones and tablets Android and iOS.

THE APP INTERACTING WITH USERS

Thanks to Riciclario it's easier to take care of the environment.

NEWS

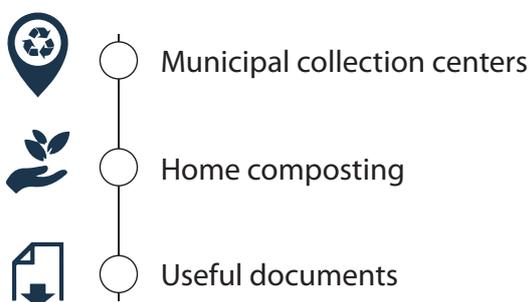

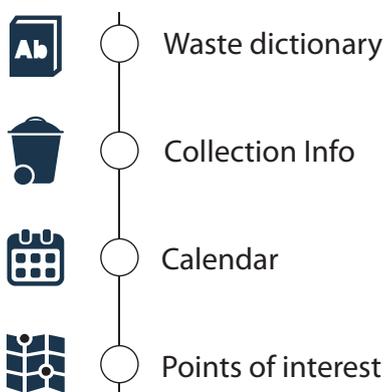

Your reports

The new feature allows user to keep track of all the messages and requests sent and to check the current status.

SUPPORT TO SEPARATE WASTE COLLECTION...

... AND URBAN ENVIRONMENTAL SERVICES

Riciclario is the only app that provides real support to those Urban Hygiene Services that most in need to be notified to the citizen:

NEWS

Waste disposal Booking

The new feature allows to book the emptying of containers outside the residential area, thus optimizing the waste collection service.

MECHANIZED SWEEPING SERVICES

> The user will be alerted when the service will take place in his area and may avoid any penalty due to temporary ban on parking

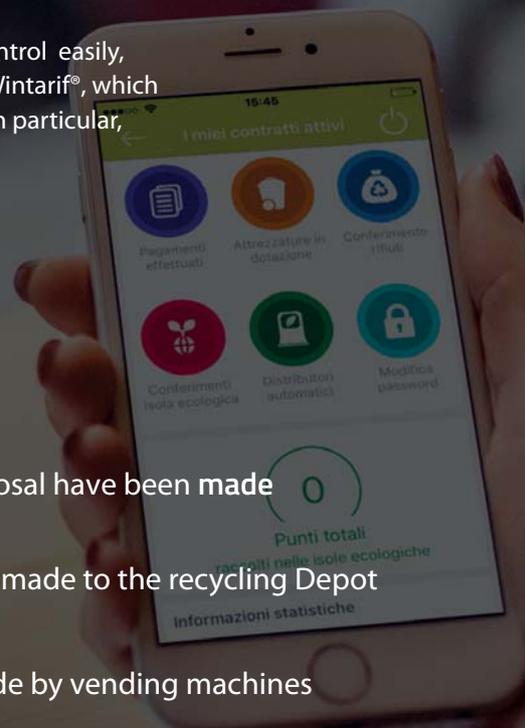

DISINFESTATION SERVICES

> The user will be alerted when will be performed the disinfestation operations and will receive useful advice to avoid any inconvenience

CONTROL AND PAYMENT OF WASTE TAX

Riciclario is able to keep your waste tax position under control easily, quickly and transparently thanks to the interaction with Wintarif®, which is one of the main municipal tax management software. In particular, the citizen will be able to see:

-  Payments made
-  Equipment supplied
-  What kind and how many waste disposal have been made
-  How many waste disposal have been made to the recycling Depot
-  How many picking up have been made by vending machines
-  Statistical information of own waste disposal

Reuse wall

Circular Economy tool

Through Reuse Wall Riciclario becomes a virtual place of exchange of unused or abandoned objects, saving them from waste.

- ✓ Helps reduce waste production
- ✓ Promotes free exchange between users of objects that may still be useful
- ✓ Generates a virtuous flow for the reuse of still usable objects

Reduce, **reuse**, recycle

Thanks to Riciclario today, the reuse practice becomes easy for all administrations wishing to promote circular economy
